

SINA REZADAD

Address: 40 Railway Pl, Footscray, 3011 VIC

Phone: +61-410-272-598

E-mail: rezadad.sina@gmail.com

Career Objective: As a Microsoft certified solution developer with background in engineering and excellent problem solving skills I am looking for an opportunity to pursue my passion toward web/app/development and programming.

Key Professional Skills

- ✓ Programming expertise in languages including Java Script (jQuery, Angular, React), CSS, HTML, Java,
 - ✓ Proficient in Programming methodology in OOP, and SDLC involving Waterfall and Agile processes
 - ✓ Proficient in Web Development tools including Atoms, Notepad ++.
 - ✓ Multilingual (English, Persian, Spanish)
 - ✓ Fast-learner and out-of-box thinker
-

Programming & Web Development Experience

Game Development Project At The University Of Melbourne:

As part of the software development course at The University Of Melbourne, I design a game with 2 players using Java. The game require users (players) to insert their details including name and age. The game rules was defined to make it interesting with limit in the extent of number of balls, upper bound, lower bound of each pick, etc. I further improved the program by employing Artificial Intelligence (AI). Thus the game became one player versus AI player. I developed the program in a way that the winning of the AI player was always guaranteed.

Web Page Design of BBC Website (Personal Development Practice):

To employ the knowledge of HTML, CSS3, and JavaScript which picked up by self-learning, I decided to re-create the webpage of the BBC website. I managed to recreate the main parts of the page with all the features to make it quite identical with the actual webpage. I developed the page using Notepad ++. This practice helped me gain the confidence and knowledge to pass the Microsoft Certified Solution Developer test.

Development of Autopilot At University Putra Malaysia:

As a part of the course name aircraft software engineering, I developed an autopilot using Matlab programming to model the aircraft performance. The project mainly involved formulating mathematically the flight mechanics of an airplane from take-off to landing. The project was used by the department for further enhancement and was modified and employed on a small micro-air-vehicle.

Development of Personal Website:

To Practice my own skills and keep myself updated with the market, I decided to develop my own webpage so that I can present it as my portfolio. All the content is code based, and I tried to keep everything simple. By visiting the page, you can view my CV, skills, do a slight interaction by inserting your name and age to active another part which is for one of the angular features. On a daily basis, I try to edit and add new features to the page.

Work Experience

Customer Service & Sales Representative **Samsung – Australia** **Oct/2016 – Present**

Customer centric sales and product recommendation: Listen to customer needs based on daily use cases and identify suitable Samsung mobile devices as part of the sales consultation process resulting in customer satisfaction.

Exceeding company sales target: Achieved and exceed sales target assigned by supervisor. Managed to trade-in multitude of used handsets in 2017 with the latest flagship model comprising of Samsung S8, Samsung Note 8.

Sales Executive **Kexxel Group - Malaysia** **Aug/2013 -Aug/2014**

Sales lead generation and qualification: Contact senior management team in South East Asian companies to introduce company training program that can be useful to improve their productivity and efficiency in their work

Achieved and exceeded sales target: Managed to invite the senior staff to our training programs during tenure with the companies and received positive feedbacks from the client. Some of the larger clients includes Petronas, May Bank, and Malaysian Airline.

Education

Microsoft Certified Solution Developer 70-480 Microsoft Nov/2017

Interpreting Certificate (Farsi-English) NAATI Jul/2015

Bachelor of Aerospace Engineering University Putra Malaysia Jul/2013

Other Information

I am an out-going and sportive person, and I enjoy venturing into new and extreme activities such as flying, watersports, and etc. My hobbies are reading, cycling, and learning new languages including intermediate level Malay/Indonesian and basic Mandarin.
